Manage Your Phone and Time More Efficiently

SkyMail Voice Mail – New Features & Enhancements Announced

Effective June 13, SkyBest is pleased to announce several enhancements and new features to our SkyMail voice mail offerings for both residential and business customers. They are designed to help you manage your phone and time more efficiently.

SkyBest has eliminated additional charges for such add-on features as the message waiting light and pager notification, plus you get e-mail notification with your voice mail at no additional charge. For busy families, e-mail notification is a great way to have instant access to their voice mail messages at work or while they’re on the computer at home.

Here is a glimpse of some of the new features and enhancements:

• Now, get up to 20 minutes for storing your voice mail messages.
• Members of your family or business can have their own sub-mailbox, and you can have multiple greetings.
• Express messaging allows you to leave a message in any voice mail box without waiting through the message.
• The new busy message prevents you from missing phone calls while you are on the phone—Callers will hear a message if you’re on the phone that says, “The party you have reached is on the phone.”
• Choose your language setting—Spanish or English.
• You can elect to receive a daily notification to let you know if you have messages waiting.
• One of the most popular features of this system is the interface it provides you with your personal computer. You don’t have to make a trip into one of our offices or call anyone once you are set up for “Manage My Phone.” With “Manage My Phone,” you create your own settings to specify the e-mail address for e-mail notification.
• With Associated Numbers, multiple phone numbers can share the same voice mailbox.

SkyBest’s 2005-sponsored performance will feature the ever popular Glenn Miller Orchestra on Tuesday, July 5, at Farthing Auditorium on the ASU campus. Customers of SkyLine and SkyBest are afforded special discounts on admission to this event, as part of our corporate sponsorship. You may use the order form in this newsletter to order your tickets, or you may contact Farthing Auditorium Box Office by phone, fax, e-mail or online (see Ticket Order Form information).

More than 50 years since the public first embraced the successful Miller Sound, both the legend and the music live on. The Glenn Miller Orchestra is the most sought-after big band in the world today, for both concert and dance band engagements, with timeless and beloved classics such as Moonlight Serenade, Tuxedo Junction, In the Mood, Chattanooga Choo-Choo, and Stardust. This renowned orchestra is the only musical organization legally authorized to carry the name of Glenn Miller and the only one that plays the authentic and original arrangements of the original Glenn Miller Orchestra. The band is a fully self-contained group, consisting of Music Director Larry O’Brien joined by five saxophone players, four trumpeters, two trombonists, three rhythm musicians and two vocalists. Just as in Glenn’s day, the average age of the sidemen is 23, and most of them have degrees in music from some of the most illustrious music schools in the country.
